ELECTRICAL ENGINEERING

IN TWO SECTIONS—SECTION 2 OF THE JANUARY 1948 ISSUE

Annual Index

to

ELECTRICAL ENGINEERING

for

Volume 66, 1947

PUBLISHED BY THE AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS
33 WEST 39TH STREET, NEW YORK 18, N. Y.

This pamphlet contains complete multientry indexes covering the contents of *ELECTRICAL ENGINEERING* for the calendar year 1947. This includes a listing of all 1947 AIEE technical program papers as published in *ELECTRICAL ENGINEERING* at least in abstract form, excepting only the few abstracts published in the December 1946 issue of *ELECTRICAL ENGINEERING*.

As a necessary expedient, to enable the issuance of this index with the January 1948 issue of *ELECTRICAL ENGINEERING*, the contents are arranged as follows:

1. **General Subject Index.** Lists all general articles including "Letters to the Editor" and digests (but not abstracts) of technical program papers, arranged alphabetically by multiple subject entries.

2. **General Author Index.** Lists all authors of material covered in the general subject index per item 1 above.

3. **Technical-Paper Subject Index.** Lists the abstracts of technical program papers, arranged alphabetically by multiple subject entries.

4. **Technical-Paper Author Index.** Lists all authors of material covered by item 3 above.

5. **AIEE News Index.** Lists all news items pertaining to Institute Activities.

6. **Non-AIEE News Index.** Lists all news items "Of Current Interest" not pertaining directly to Institute Activities.

7. **Biographical Index.** Lists all personal and obituary items on AIEE members.

Page Allocation by Issues

January	1–112	July	631–746
February	113–214	August	747–856
March	215–324	September	857–948
April	325–424	October	949–1048
May	425–520	November	1049–1164
June	521–630	December	1165–1270

1. General Subject Index

A-C Magnets and Solenoids. Rader....487–92
A-C Motors for Paper Mill Chippers. Baker, Lory....1099–1103
A-C Power Transmission Economics. Crary, Johnson....793–7
A-C Vehicle Generating System, An. Gilchrist..779–80
Acceleration Measurement, A Vacuum Tube for. Ramberg....555–6
Action of the Squirrel Cage, Amortisseur. (Letter) Bretch....110
Adjustable Frequency Control of High-Speed Induction Motors. Heumann....576–9
Advances in 3,600-RPM Turbine Generators....352–4
Aging Tests on Class A Insulation. (Committee Report)....910–13
Aid in Depreciation Study, Temperature Records as an. Tripp....182–6
Aids for the Blind. Benham....178–82
Letters....422, 423
AIEE, Edison and the. Housley....118
AIEE, Electrical Standardization and. Farrer..768–70
AIEE With Other Organizations, Reorganizing the. (Letter) Knoeppel....211
Air-borne Magnetometers. Felch, Means, Slonczewski, Parratt, Rumbaugh, Tickner....680–5
Aircraft, Electric Drive for. Crom....1206–08
Aircraft, Electronic Frequency Changers for. Bowlus, Nims....463–6
Aircraft, Electrostatic Ills and Cures of. Beach.
Part I—Electrification of Airplanes and How It Causes Radio Interference....325–34
Part II—Radio Interference and Its Control453–62
Letters....1044, 1045
Aircraft Generators, Control of D-C. McClinton....362–4
Air-Gap Motor, Axial....670–1
(Air Transportation) Control of D-C Aircraft Generators. McClinton....362–4
(Air Transportation) Landing Through Overcast. Harding....1176–7
Alexander Graham Bell—Scientist. Mann....215–31
Alternator, Variable-Speed Constant-Frequency. Crooks....882–4
Aluminum Industry, Conversion Equipment in the United States. Tompkins....1068–73
(Aluminum) Large Rectifier Station Practice. Bohn, Ward, Dickinson, Marshall....957–8
Analysis, PCM Distortion. Clavier, Panter, Grieg....1110–22
Antenna, Biconical Television. (Photo)....1011
Approach to the 5-Year Curriculum, An. Ryder 535–7 (Letter)....856
Arc Lamp in a Light Beam Communication System, The Concentrated-. Buckingham, Deibert, Morgenstern....975–9
Atom and Its Nucleus, The. Smith....1165–75
(Atomic Bomb) Electronics—Workhorse at Bikini..6–10
(Atomic Bomb) The Significance of Bikini. Pratt, Van Dyck....1–5
Atomic Energy in Industry. Winne....631–8
Atomic Power, Its Birth and Its Human Meaning. Compton....857–63
Auxiliary Power Equipment, Modern Railway Passenger Car. MacLeod, Hause....864–8
Axial-Air-Gap Motor....670–1

B

Band Designations, Proposed Frequency. (Committee Report)....471
(Basic Sciences) Machine Computing of Networks. Dunstan....901–06
(Basic Sciences) The Physics of Electronic Semiconductors. Pearson....638–42
Beam Communication System, The Concentrated-Arc Lamp in a Light. Buckingham, Deibert, Morgenstern....975–9
Bell Invented the Telephone, How. (Watson Address 1915)....232–6
Bell—Scientist, Alexander Graham. Mann..215–31
B-H Tracer, A Cathode-Ray. Zamsky....678–80
Bibliography, National Office of....863
Bikini, Electronics—Workhorse at....6–10
Bikini, The Significance of. Pratt, Van Dyck....1–5
Birth and Its Human Meaning, Atomic Power. Compton....857–63
Blind, Aids for the. Benham....178–82
Letters....422, 423
Board of Directors, Report of the....714–36
Boilers, Control of Electric. Eaton....991–5
Boilers, The Utility View of Electric. Stirling..995–7
Bonneville, Transformer for. (Filler)....1094
Braking of D-C Motors, Dynamic. Leitch....694–7
Broadcasting, Multiplex. Pulse Time Modulation and Its Application to Radiobroadcasting. Altman, Dyer....372–80
(Broadcasting) Progress in Television. Town...580–90
Burning by Leakage Currents, Wood Structure. Ross...472–4

C

Cable Carrier Developments. Black, Brooks, Wier, Wilson, Tidd, Rosen, Wenk....650–6
Cable, Submarine. (Letter) Timms....745
Cable Telegraphy, Modern Ocean. Cramer..765–7
Cage, Amortisseur Action of the Squirrel. (Letter) Bretch....110
Calculations, Transmission Line Impedance. (Letter) Hamlin, Galbraith....743
Calculator, IBM. (Letter) McPherson....740
California Institute of Technology, Electrical Engineering Graduate Studies—Program of. Sorensen....1049–53
(Calorimetric) Dielectric Loss at High Frequency. Whitehead....907–10
Canada, Electrometallurgy in. Balleny....774–8
Canada, Engineering Organization in. Lawton..146–8
Capacitance Effect of Conductor in Magnetic Field. Richter....784–6
Carrier Developments, Cable. Black, Brooks, Wier, Wilson, Tidd, Rosen, Wenk....650–6
Car, The Improved PCC. Cooper....342–5
Carrier System, A New Single-Side-Band. Lenehan....549–52
Carrier Telephony, Rural. Barstow, Bartelink, Cook, Cowan, Messmer....425–31
Cars for New York Subways, New. Cordts....547–9
Catapult, New Airplane. (Photo)....979
Cathode-Ray B-H Tracer, A. Zamsky....678–80
Caustic Industry, D-C Power for the Chlorine-. Kircher, Hubbard....1059–63
Changers for Aircraft, Electronic Frequency. Bowlus, Nims....463–6
Characteristics of Hydraulic Turbines That Effect Operating Efficiency. Roberts....542–6
Charges, The Forces Between Moving. Sard....61–5
Letters....518, 741, 1162
(*See also Electromagnetics*)
(Chemical) Large Rectifier Station Practice. Bohn, Ward, Dickinson, Marshall....957–8
Chemistry, Silicones—a New Continent in the World of. (Photo) Bass....581–5
China, Electric Power in. McMillan....67–74
China, Industrial Future of. Koo....131–4
Chippers, A-C Motors for Paper Mill. Baker, Lory....1099–1103
Chlorine-Caustic Industry, D-C Power for the. Kircher, Hubbard....1059–63
(Circuit Breakers) New Overcurrent Tripping Device. Rawlins, Sandin....1194–7
Circuit of the Primitive Rotating Machine, Equivalent. Kron....369–72
Circuit Standards for Transformers, Short-. Garin....771–3
Circuits, Grounding of Instrument Transformer Secondary....335–7
City Transportation, Improved. Clardy....915–18
Class A Insulation, Aging Tests on. (Committee Report)....910–13
Clock, Electronic Crystal. (Filler)....380
Coal for Power, Liquified. (Filler)....1175
(Coding) Marking of Electric Equipment. Powell....345–51
Colorado River Developments, The Proposed. Peterson....1184–93
(Committee) Electrical Standardization and AIEE. Farrer....768–70
Committee Organization, New AIEE....1006–11
(Committee Report) Aging Tests on Class A Insulation....910–13
(Committee Report) Grounding of Instrument Transformer Secondary Circuits....335–7
(Committee Report) Proposed Frequency Band Designations....471
(Communication) A Quarter Century of Electronics. Mouromtseff....171–77
(Communication) Air-Borne Magnetometers. Felch, Means, Slonczewski, Parratt, Rumbaugh, Tickner....680–5
(Communication) Cable Carrier Developments. Black, Brooks, Wier, Wilson, Tidd, Rosen, Wenk....650–6
(Communication) Electrostatic Ills and Cures of Aircraft. Beach
Part I—Electrification of Airplanes and How It Causes Radio Interference....325–34
Part II—Radio Interference and Its Control 453–62
Letters....1044, 1045
Communication Equipment Observed at Winter Tests, Military....781–3
(Communication) Expedient Power Line Construction. Rorden....884–7
(Communication) Experimental Rural Radiotelephony. Moore, Seyler, Wright....346–8
(Communication) High Frequency Heating in the Radio Spectrum. Rudd....570–6
(Communication) Modern Ocean Cable Telegraphy. Cramer....765–7
Communication, Modulation in. Cowan....919–24
(Communication) PCM Distortion Analysis. Clavier, Panter, Grieg....1110–22
(Communication) PCM Equipment. Black, Edson....1123–5
(Communication) Progress in Television. Town....580–90
(Communication) Rural Carrier Telephony. Barstow, Bartelink, Cook, Cowan, Messmer....425–31
Communication System, The Concentrated-Arc Lamp in a Light Beam. Buckingham, Deibert, Morgenstern....975–9
(Communication) Television Network Facilities. Abrahams, Romnes....477–82
(Communication) The Radio Proximity Fuse. Bonner....888–93
(Communication) The XY Dial Telephone System. Reed....437–40
Communications, Measurements in. Fowler...135–40
Comparisons of Railway Motive Power in the Pacific Northwest. Martin....161–6
Compensators, Metering With Transformer-Loss. Schleicher....538–42
Computing of Networks, Machine. Dunstan..901–906
Concentrated-Arc Lamp in a Light Beam Communication System, The. Buckingham Deibert, Morgenstern....975–9
Conducting Rubber, Electrically. (Filler)....778
Conductor in Magnetic Field, Capacitance Effect of. Richter....784–6
Constant-Current Motor Systems, Electronic. Livingston....432–7
Constant-Frequency Alternator, Variable-Speed. Crooks....882–4
Construction, Expedient Power Line. Rorden...884–7
Control as a Management Tool, Quality.
Part I—Organization of Quality Control as a Management Tool. Foy....483–6
Part II—Plant Organization for Quality Control. Durst....486–7
Control, Electric Gauges in Quality. Manuele..441–4
Control, Engineering and Quality. Alger....1011–19
Control of D-C Aircraft Generators. McClinton..362–4
Control of Electric Boilers. Eaton....991–5
Control of High-Speed Induction Motors, Adjustable Frequency. Heumann....576–9
Control, Radar Techniques in an Industrial. Cockrell..363–8
Controlling Electrical Hazards. Dalziel....786–92
(Conversion) D-C Power for Magnesium Plants. Glaza....1063–8
(Conversion) D-C Power for the Chlorine-Caustic Industry. Kircher, Hubbard....1059–63
Conversion Equipment in the duPont Company. Houck....1077–82
Conversion Equipment in the United States Aluminum Industry. Tompkins....1068–73
Conversion Systems, D-C to A-C. Wills....39–40
Converters, Paralleling Rectifiers and. Kennard....1074–6
Cooling of Turboalternators, Liquid. Fechheimer....969–74
Copperspun Squirrel-Cage Rotor. Anderson....980–2
Corbon Industry, Electric Power in the. Bobe....662–6
(Crystals) Nature and Use of Piezoelectricity. Cady....758–62
Current Machinery, Electric Eddy. Winther...643–6
Current Motor Systems, Electronic Constant-. Livingston....432–7
Curricula, Reorientation in Engineering. (Letter) Friedmann....855
Curricula, Reorientation Needed on Engineering. (Letter) Samuels....212
Curriculum, An Approach to the 5-Year. Ryder....535–7
Letter....855
(Curriculum) Electrical Engineering Graduate Studies—Program of California Institute of Technology. Sorensen....1049–53
Curriculum, Engineering. (Letter) Stoddard....1161
(Curriculum) Engineering Education. Abbott, Boast....1058

D

D-C Aircraft Generators, Control of. McClinton....362–4
D-C Motors, Dynamic Braking of. Leitch....694–7
D-C Power for Magnesium Plants. Glaza....1063–8
D-C Power for the Chlorine-Caustic Industry. Kircher, Hubbard....1059–63
Defense of North America, The. McNaughton..754–7
Definitions, For More Practical Electrical. (Letter) Weller....519
Depreciation Study, Temperature Records as an Aid in. Tripp....182–6
Designations, Proposed Frequency Band. (Committee Report)....471
Development in Quebec, Hydroelectric. Lawton..873–9
Development of the Missouri Basin. Greene...140–5
Developments, Cable Carrier. Black, Brooks, Wier, Wilson, Tidd, Rosen, Wenk....650–6

Developments in Relays, Recent. Ellwood, Brown, Pollard....1104–09
Developments, The Proposed Colorado River. Peterson....1184–93
Device, New Overcurrent Tripping. Rawlins, Sandin....1194–7
Dial Telephone System, The XY. Reed....437–40
Dielectric Heating, Induction and. Pinder....149–60
Dielectric Loss at High Frequency. Whitehead..907–10
(Diesel-Electric) Comparisons of Railway Motive Power in the Pacific Northwest. Martin....161–6
Diesel-Electric Locomotive, A 3,000-Horsepower. Staples, Weybrew, Atwell....448–52
Distortion Analysis, PCM. Clavier, Panter, Grieg....1110–22
Distribution, High-Voltage Power. McHenry, McKeever....985–90
Distribution, Low-Voltage Power. Bird, Bloomquist....958–1004
Distribution in Textile Plants, Power. McConnell....667–9
Drive for Aircraft, Electric. Crom....1206–08
Drives, Paper Machine. Rogers....1082–8
duPont Company, Conversion Equipment in the. Houck....1077–82
Dynamic Braking of D-C Motors. Leitch....694–7
(Dynamometer) Electric Eddy Current Machinery. Winther....643–6

E

Economics, A-C Power Transmission. Crary, Johnson....793–7
Eddy Current Machinery, Electric. Winther....643–6
Edison and the AIEE. Housley....118
"Edison Effect"—(1884) Notes on Phenomena in Incandescent Lamps. Houston....119–21
Edison Medal Presented to Lee de Forest, 1946....254
Edison Medal, The. Dean....122–3
Edison Medalists, List of Previous....122
(Edison) The Electrical Engineer. Lee....521–4
Edison, Thomas A. Inventor....113–17
(Education) An Approach to the 5-Year Curriculum. Ryder....535–7
(Education) Electrical Engineering Graduate Studies—Program of California Institute of Technology. Sorensen....1049–53
Education, Engineering. Abbott, Boast....1058
(Education) Engineering Teaching Inducements. (Filler)....1058
(Education) Training English Teachers for Engineers. Crouch, Zetler....1182–4
Effect of Conductor in Magnetic Field, Capacitance. Richter....784–6
Efficiency, Characteristics of Hydraulic Turbines That Effect Operating. Roberts....542–6
(Einstein) The Forces Between Moving Charges. Sard....61–5
Letter....518
(*See also Electromagnetics*)
(Einstein) The Motional Mass of the Electron. Boddie....45–60
Letters....391, 320, 321, 420, 421, 422
(*See also Electromagnetics*)
Einstein's Relations Between Mass and Energy, Newton's and Smith....561–4
Electric Boilers, Control of. Eaton....991–5
Electric Boilers, The Utility View of. Stirling..995–7
Electric Drive for Aircraft. Crom....1206–08
Electric Eddy Current Machinery. Winther..643–6
Electric Equipment in the Finishing Room. Winterburn....1091–4
Electric Equipment Maintenance. Eliason..1088–90
Electric Equipment, Marking of. Powell....349–51
Electric Flow Meter, An. Laub....1216–19
Electric Gauges in Quality Control. Manuele..441–4
(Electric Machinery) Aging Tests on Class A Insulation. (Committee Report)....910–13
(Electric Machinery) Axial-Air-Gap Motor....670–1
(Electric Machinery) Copperspun Squirrel-Cage Rotor. Anderson....980–2
(Electric Machinery) Dynamic Braking of D-C Motors. Leitch....694–7
(Electric Machinery) Electrification of the 2-for-1 Twister. Gwaltney, Burnham....274–6
(Electric Machinery) Equivalent Circuit of the Primitive Rotating Machine. Kron....369–72
(Electric Machinery) Liquid Cooling of Turboalternators. Fechheimer....969–74
(Electric Machinery) Rotor Removal From Large Machines....1214–15
(Electric Machinery) Short-Circuit Standards for Transformers. Garin....771–3
(Electric Machinery) Test of Silicones for Shipboard Use. Walker....647–9
Electric Power, Electrostatic Sources of. Trump....525–34
Electric Power in China. McMillan....67–74
Electric Power in the Cotton Industry. Bobe....662–6
Electric Power Sources. Matsch, Brown....880–1
Electric Power System, The Japanese. Burger..1201–06
Electric Systems, Energy Flow in. (Letter) Slepian..318
Letter....944
Electrical Definitions, For More Practical. (Letter) Weller....519

3. Technical-Paper Subject Index

Acceleration With a Vacuum Tube, The Measurement of. Ramberg....402
Aging Tests on Class A Insulation, Preliminary Report on Laboratory. (Committee Report)....608
(Air Transportation) An Integrated Control System for Aircraft D-C Generators. McClinton....84
(Air Transportation) Capacitance Fuel Gauges. Clark, Adolphe....840
(Air Transportation) Electric Equipment Required in a Modern 6-Component Wind-Tunnel Model Suspension System. Cox....840
(Air Transportation) Electricity Aloft. Martin....925
(Air Transportation) High Altitude Flashover and Corona Correction on Small Ceramic Bushings. Pendleton....925
(Air Transportation) Landing Through Overcast. Harding....925
(Air Transportation) Power and Control Systems for Aircraft Window Deicing. Mershon....925
(Air Transportation) Using Air-borne Radar to Increase Air Line Safety. Ayer....925
Aircraft, A Capacitance-Type Fuel-Measurement System for. Pearson....927
Aircraft, Electric Drive for. Strom....927
Aircraft Electric Power Protective Systems. Austin....925
Aircraft Electric System Testing. Merriman....925
Aircraft Generator Power Center, D-C. Bottemiller....840
Aircraft, Ground Power Supply for Modern. Owen, Murray, Rosenstein....840
Airplanes, Automatic Temperature Control for Transport. Hedges....840
Airport Runway and Approach Lighting. Kevern....925
Amplifier, Some Fundamentals of a Theory of the Transductor or Magnetic. Lamm....609
Amplifier Using Biased Saturable Core Reactors, A Balanced. Kirschbaum, Harder....89
Arc-Back Testing of Graphite. Pakala, Cucullu....88
Automatic Circuit Recloser, An Improved. Wallace....93
Automatic Control of Hydroelectric Generating Stations. Brown, Ten....91
(Automatic Stations) Automatic Control of Air Switches for Line Sectionalizing and Load Transformer. Rich, Kirwen....84
(Automatic Stations) Automatic Switching Schemes for Capacitors. Cuttino....85
(Automatic Stations) The Economics of Using Capacitors in Amounts to Require Automatic Switching. Butler....85

B

(Basic Sciences) Determination of Corona Starting Voltages for Nonuniform Fields in Air. Hutton....1125
(Basic Sciences) Diffusion of Electric Current into Rods, Tubes, and Flat Surfaces. Miller....1125
(Basic Sciences) Effective Resistance of Isolated Nonmagnetic Rectangular Conductors. Dwight....85
(Basic Sciences) Machine Computation of Power Network Performance. Dunstan....85
(Basic Sciences) The Physics of Electronic Semiconductors. Pearson....85
Bearing Practice for Vertical Water Wheel Generators, Modern. Laffon, Baudry....92
Bearings at the Bonneville Plant of the Corps of Engineers, The Design and Performance of the Vertical Generator Thrust. Lewis, Gordon....841
Boilers, Automatic Operation of Electric. Eaton....609
Bonneville Plant of the Corps of Engineers, The Design and Performance of the Vertical Generator Thrust Bearings at the. Lewis, Gordon....841
Braking of Two D-C Series Motors, Dynamic. Leitch....609
Bridge, A Self-Balancing Capacitance. Foley....610
Broadcast Stations, Television Equipment for. Lawrence....85
Brush Characteristics by the Dynamotor Method, Dynamic. Herman....608

C

Cable Carrier System, An Improved. Black, Brooks, Wier, Wilson....401
Cable Carrier Systems, New Test Equipment and Testing Methods for. Tidd, Rosen, Wenk....401
Cable Network, Frequency Division Techniques for a Coaxial. Crane, Dixon, Huber....1125
Cables, Internal Corona Discharges in Insulated. Greenfield....92
Capacitance Bridge, A Self-Balancing. Foley....610
Capacitance Fuel Gauges. Clark, Adolphe....840
Capacitance-Type Fuel-Measurement System for Aircraft, A. Pearson....927
Capacitor Motor, The Equivalent Circuit of the. Chang....87
Capacitor Motors, A Design Method for. Lloyd, Chang....87
Capacitor Start Motors, A Design Method for. Chang....926
Capacitors, Automatic Switching Schemes for. Cuttino....85
Capacitors in Amounts to Require Automatic Switching, The Economics of Using. Butler....85
Capacitors, The Probable Breakdown Voltage of Paper Dielectric. Brooks....613
Carrier Channels, Operation of Power Line. Lessner....613
Carrier System, An Improved Cable. Black, Brooks, Wier, Wilson....401
Carrier System for Power Lines, A New Single Side Band. Lenehan....401
Carrier Systems, New Test Equipment and Testing Methods for Cable. Tidd, Rosen, Wenk....401
Carrier Telephone System, Application of Rural. Bartelink, Cook, Cowan, Messmer....86
Carrier Telephone System for Rural Service, A. Barstow....86
Cathodic Protection of Steel Water Tanks Using Aluminum Anodes. Sudrabin, Mears....89
Circle Diagram of the Polyphase Brush Shifting Commutator Motor, The. Franklin....1127
(Circuit Breaker) A Development in 5,000 Volt Metal-Clad Switchgear. Lockett, Wood....613
Circuit Breaker Current Measurements During Reignitions and Recovery. Lewis....842
(Circuit Breaker) Performance Criteria of D-C Interrupters. Bochne, Jang....613
(Circuit Breaker) The Interruption of Charging Current at High Voltage. Leeds, Van Sickle....93
Circuit Breakers, An Improved Overcurrent Tripping Device for Low-Voltage. Rawlins, Sandin....613
Circuit Breakers, Selective Tripping of Low-Voltage Air. Deans....613
Circuit Breakers Under Abnormal Conditions in American and Other Standards, On Definitions of Magnitudes Characterizing the Behavior of. Gerstonowicz....614
Circuit Recloser, An Improved Automatic. Wallace....93
Coach Compete Economically With the Gas or Diesel Bus When No Overhead Facilities Exist?, Can the Trolley. Gauss....91
Coaches and PCC Streetcars Provide Successful City Transportation, Trolley. Clardy....610
Coaxial Cable Network, Frequency Division Techniques for a. Crane, Dixon, Huber....1125
Coil Surfaces, Accuracy of Temperature Measurements on. Beede, Cain....87
Coils, Data on the High-Frequency Resistance of. Witzig....609
(Committee Report) First Interim Report on Interior Wiring Design for Commercial Buildings....1125
(Committee Report) Grounding of Instrument Transformer Secondary Circuits....93
(Committee Report) Preliminary Report on Laboratory Aging Tests on Class A Insulation....608
(Committee Report) Present-Day Grounding Practices on Power Systems, Third AIEE Report on Grounding Practices....1127
(Committee Report) Progress in Power Generation—1940-46....1126
(Committee Report) Relay Protection of Power Transformers....613
(Communication) A Bearing Deviation Indicator for Sonar. Schuck, Stedman, Hathaway, Butz....840
(Communication) A Carrier Telephone System for Rural Service. Barstow....86
(Communication) A New Single Side Band Carrier System for Power Lines. Lenehan....401
(Communication) An Electronic Regenerative Repeater for Teletypewriter Signals. Hearn....607
(Communication) An FM Telegraph Terminal Without Relays. Cusack, Michon....608
(Communication) An Improved Cable Carrier System. Black, Brooks, Wier, Wilson....401
(Communication) A 60-Cycle Hysteresis Loop Tracer for Small Samples of Low Permeability Material. Wiegand, Hansen....85
(Communication) Application of Rural Carrier Telephone System. Bartelink, Cook, Cowan, Messmer....86
(Communication) Distortion and Band Width Characteristics of Pulse Modulation. Krauss, Ordung....608
(Communication) Distortion in a Pulse-Count Modulation System. Clavier, Panter, Grieg....607
(Communication) Frequency Division Techniques for a Coaxial Cable Network. Crane, Dixon, Huber....1125
(Communication) Frequency Shift Telegraphy-Radio and Wire Applications. Davey, Mattee....86
(Communication) Gas Pressure for Telephone Cables. Giese....86
(Communication) General Mobile Telephone System. Romnes, O'Connor....1125
(Communication) Joint Use of Pole Lines for Rural Power and Telephone Services. Campbell, Hill, Moore, Scholz....86
(Communication) Modulation in Communication. Cowan....607
(Communication) New Test Equipment and Testing Methods for Cable Carrier Systems. Tidd, Rosen, Wenk....401
(Communication) Postwar Television Receiver Design. Pugsley....85
(Communication) Pulse Code Modulation. Black, Edson....607
(Communication) Pulse Echo Measurements on Telephone and Television Facilities. Abraham, Lebert, Maggio, Schott....86
(Communication) Rural Radiotelephone Experiment at Cheyenne Wells, Colo. Moore, Seyler, Wright....86
(Communication) Some Modern Techniques in Ocean Cable Telegraphy. Cramer....607
(Communication) Submarine Detection by Sonar. Keller....840
(Communication) Television Equipment for Broadcast Stations. Lawrence....85
(Communication) Television Network Facilities. Abraham, Romnes....86
(Communication) The Application of Heterodyne Modulation to Wide-Band Frequency-Modulated Television Relays. Boothroyd....608
(Communication) The Stromberg-Carlson XY Dial Telephone System. Reed....86
(Communication) TVA Co-ordinated Communication System. Talmage....607
Compass With Cathode-Ray Sensing Element, A Magnetic. Kliever, Syrdal....88
Compensators, Metering With Transformer-Loss. Schleicher....610
Conductor Effect on Sags in Suspension Spans, Broken. Bisiri, Landau....841
Conductor Vibration on Energized 230-Kv Transmission Lines. Poland, Elton....841
Conductors, Effective Resistance of Isolated Nonmagnetic. Dwight....85
Conductors—Tidd 500-Kv Test Lines, Line. Peterson, Simmons, Hickernell, Noyes....1128
Control of Air Switches for Line Sectionalizing and Load Transfer, Automatic. Rich, Kiren....84
Control of High-Speed Induction Motors, Adjustable Frequency. Heumann....402
Control of Slip Ring Motors by Means of Unbalanced Primary Voltages. Schmitz....609
Control of Switchgear, The Application of Storage Batteries to the. Hoxie....1127
Control, Radar Technique in an Industrial. Cockrell....89
Control System for Aircraft D-C Generators, An Integrated. McClinton....84
Control System for Wind Tunnel Drives, A. Heidenreich....1126
Copper-Oxide Rectifiers for Electroplating and Anodizing Applications, Automatically Controlled. Buckley....91
Copper-Oxide Rectifiers, Higher-Voltage. Smith....91
"Copperspun" Squirrel-Cage Rotor, The. Anderson....926
Corona Considerations on High-Voltage Lines and Design Features of Tidd 500-Kv Test Lines. Wagner, Wagner, Peterson, Gross....1128
Corona Correction on Small Ceramic Bushings, High Altitude Flashover and. Pendleton....925
Corona Discharges in Insulated Cables, Internal. Greenfield....92
Corona Starting Voltages for Nonuniform Fields in Air, Determination of. Hutton....1125
Crane Hoists, A Thyratron Lowering Control System for A-C. Schwarz-Kast....88
Current Transformers During Faults, Transient Characteristics of. Rothe, Concordia....402

D

Demand Meter, A Polyphase Thermal Ampere. Petzinger....90
Dielectric Heating—the Measurement of Loss Under Rising Temperatures. Whitehead....610
Diesel-Electric Locomotive for the Seabord Air Line Railway, A 3,000 Horsepower. Staples, Weybrew, Atwell....90
Diesel-Electric Locomotives, A Power Plant Regulating System for. Lewis....90
Diesel-Electric Locomotives, Braking Resistors and Control for. Weiser....90
Diesel-Electric Locomotives, Developments in Control Systems for. Henshaw....90
Diesel-Electric Traction-Generator Excitation Control Systems, Developments in. Brancke, Adams....90
Diffusion of Electric Current into Rods, Tubes, and Flat Surfaces. Miller....1125
Distance Relaying, Fundamental Basis for. Lewis....93
(Distribution) Burning of Wood Structures by Leakage Currents. Ross....92
(Distribution) Field Investigation of Lightning Surges at Substations. Gross, McCann....92
(Distribution) Field Research on Lightning Arrester Discharges. McCann, Beck....92
(Distribution) Internal Corona Discharges in Insulated Cables. Greenfield....92
(Distribution) Lightning Investigation on the 25-Kv System of the West Penn Power Company. Bowen, Beck....612
(Distribution) Photographic Study of Lightning. Hagenguth....92
Dynamic Braking by Self-Excitation of Squirrel-Cage Motor. Srinivasan, Thomas....88
Dynamic Braking of a Single D-C Series Motor. Leitch....88
Dynamic Braking, The Design of New York Subway Motors for. Widell....611
Dynamometer for Small Motor Measurements, A High Precision. Duff....926
Dynamotor Method, Dynamic Brush Characteristics by the. Herman....608

E

Economics of Long-Distance A-C Power Transmission. Crary, Johnson....613
Economics of Using Capacitors in Amounts to Require Automatic Switching, The. Butler....85
Eddy Current Loss in Laminated Cores, Interlaminar. Beiler, Schmidt....608
Electric Boilers, Automatic Operation of. Eaton....609
Electric Drives for Textile Finishing Ranges. Moore, Uhl....89
Electric Equipment for 2-for-1 Twister. Gwaltney, Burnham....90
Electric Equipment in the Finishing Room. Winterburn....610
Electric Furnace Practice in Canada. Balleny....610
(Electric Machinery) Electric Drive for Aircraft. Crom....927
(Electric Machinery) Leakage Reactance of the Squirrel-Cage Rotor With Respect to the Stator Harmonics and the Equivalent Circuit of the Induction Motor. Liwschitz....927
(Electric Machinery) Physical Concept of Leakage Reactance. Kuhlmann....927
(Electric Machinery) Some Phases of Calculation of Leakage Reactance of Induction Motors. Formhals, Liwschitz....927
(Electric Machinery) The Hysteresis Motor-Advances Which Permit Economical Fractional Horsepower Ratings. Rotors....927
Electricity Aloft. Martin....925
Electrification of the Cotton Industry in the South. Bobe....89
Electrodynamic Instrument Mechanism, Applications of the. Corson, Millar....610
(Electrolysis) Cathodic Protection of Steel Water Tanks Using Aluminum Anodes. Sudrabin, Mears....89
Electromechanical System Development, Laboratory Aids for. Newton, White....93
Electro-Optical Shutter for Photographic Purposes. Zarem, Marshall, Poole....841
Electronic Constant-Current Motor System. Livingston....88
Electronic Null Detectors for Use With Impedance Bridges. Lamson....88
Electronic Regenerative Repeater for Teletypewriter Signals, An. Hearn....607
Electronic Semiconductors, The Physics of. Pearson....85
Electronic Stabilizer for Power Transmission. Alexanderson, Prince....612
Electronic Telemetering System. Foster, Kiefer....610
(Electronics) A Colorimetric Method for Direct Measurement of Plate Dissipation. Squier....927
(Electronics) A Magnetic Compass With Cathode-Ray Sensing Element. Kliever, Syrdal....88
(Electronics) Arc-Back Testing of Graphite. Pakala, Cucullu....88
(Electronics) Design and Application of Supersonic Flaw Detectors. Erdman....841
(Electronics) Direct-Coupled Oscillograph Amplifier. Christian....927
(Electronics) High Frequency Heating in the Radio Spectrum. Rudd....609

(Electronics) The Measurement of Acceleration With a Vacuum Tube. Ramberg....402
(Electronics) The Shunt Tube Control of Thyratron Rectifiers. Potter....88
Equivalent Circuit of the Capacitor Motor, The. Chang....87
Excitation Problems in Hydroelectric Generators Supplying Long Transmission Lines. Killgore....841

F

Flaw Detectors, Design and Application of Supersonic. Erdman....841
FM Telegraph Terminal Without Relays, An. Cusack, Michon....608
Frequency Changer, Suddenly Applied Loads on a Variable-Ratio. Carter, Maginnis, Rothe....1126
Frequency Changer, Tensorial Analysis and Equivalent Circuit of a Variable-Ratio. Kron....1126
Frequency Shift Telegraphy-Radio and Wire Applications. Davey, Mattee....86
Furnace Practice in Canada, Electric. Balleny....610

G

Galloping Conductors and a Method for Studying Them. Tornquist, Becker....612
Gas Detector Relay Protection, Typical Transformer Faults and. Madill....608
Gas Pressure for Telephone Cables. Giese....86
Gaseous Insulation for High-Voltage Apparatus. (Committee Report)....1127
Gauges, Capacitance Fuse. Clark, Adolphe....840
Generating Capacity Problems of a Combined Hydro and Steam System, Probability Methods Applied to. Loane, Watchorn....1126
Generating Capacity Outages, Calculating Probability of. Lyman....1126
Generating Stations, Automatic Control of Hydroelectric. Brown, Derr....91
Generating Units, The Maintenance of Hydroelectric. Robertson, Standing....611
(Generation) Excitation Problems in Hydroelectric Generators Supplying Long Transmission Lines. Killgore....841
(Generation) Factors in the Economic Supply of Energy in Hydroelectric Systems. Frampton, Floyd....612
(Generation) Generating Reserve Capacity Determined by the Probability Method. Calabrese....1126
(Generation) Hydroelectric Power Development in Quebec. Lawton....611
Generation—1940–46, Progress in Power. (Committee Report)....1126
(Generation) Suddenly Applied Loads on a Variable-Ratio Frequency Changer. Carter, Maginnis, Rothe....1126
(Generation) Tensorial Analysis and Equivalent Circuit of a Variable-Ratio Frequency Changer. Kron....1126
(Generation) Testing Governor Performance on Electric Power Systems with Improved Instruments. Allen, Hess....91
(Generation) The Design and Performance of the Vertical Generator Thrust Bearings at the Bonneville Plant of the Corps of Engineers. Lewis, Gordon....841
(Generation) The German Electrical Utility Industry During World War II. Noest....612
(Generation) The Maintenance of Hydroelectric Generating Units. Robertson, Standing....611
Generator, A Variable Speed Constant-Frequency. Roys, Nader, Spotts....926
Generator Excitation Control Systems, Developments in Diesel-Electric Traction-. Brancke, Adams....90
Generator Power Center, D-C Aircraft. Bottemiller....840
Generator Reserve, Outage Expectancy as a Basis for. Seelye....1126
Generators, An Integrated Control System for Aircraft D-C. McClinton....84
Generators, Liquid Cooling of A-C Turbine. Feichheimer....87
Generators, Modern Bearing Practice for Vertical Water Wheel. Laffon, Baudry....92
Generators, Resynchronizing of. Concordia, Temoshok....1127
German Electrical Utility Industry During World War II, The. Noest....612
Governor Performance on Electric Power Systems With Improved Instruments, Testing. Allen, Hess....91
Grain Handling and Grain Processing Plants, The Hazards of Static Electricity in. Park....614
Graphite, Arc-Back Testing of. Pakala, Cuculla....88
Grounding of Instrument Transformer Secondary Circuits. (Committee Report)....93
Grounding Practices on Power Systems, Third AIEE Report on Grounding Practices, Present-Day. (Committee Report)....1127
Grounding System, A Selective. Herzog....89
Ground Power Supply for Modern Aircraft. Owen, Murray, Rosenstein....840

H

Heating in the Radio Spectrum, High Frequency. Rudd....609
Heating—the Measurement of Loss Under Rising Temperatures, Dielectric. Whitehead....610
Hermetic Motors, The Design and Application of. Slade....927
High Frequency Heating in the Radio Spectrum. Rudd....609
High-Frequency Resistance of Coils, Data on the. Witzig....609
Hiperco—A Magnetic Alloy. Stanley, Yensen....608
Hoists, A Thrustor Lowering Control System for A-C Crane. Schwarz-Kast....88
Hospital Operating Rooms, Hazards of Static Electricity in. Williams....613
Hydroelectric Generating Stations, Automatic Control of. Brown, Derr....91
Hydroelectric Generating Units, The Maintenance of. Robertson, Standing....611
Hydroelectric Generators Supplying Long Transmission Lines, Excitation Problems in. Killgore....841
(Hydroelectric) Modern Bearing Practice for Vertical Water Wheel Generators. Laffoon, Baudry....92
Hydroelectric Power Development in Quebec. Lawton....611
Hydroelectric Systems, Factors in the Economic Supply of Energy in. Frampton, Floyd....612
(Hydroelectric) The Design and Performance of the Vertical Generator Thrust Bearings at the Bonneville Plant of the Corps of Engineers. Lewis, Gordon....841
Hysteresis Loop Tracer for Small Samples of Low Permeability Material, A 60-Cycle. Wiegand, Hansen....85
Hysteresis Motor-Advances Which Permit Economical Fractional Horsepower R tings, The. Rotors....927

I

Ignitor Characteristics and Circuit Calculations. Marshall....1125
(Industrial) A Balanced Amplifier Using Biased Saturable Core Reactors. Kirschbaum, Harder....89
(Industrial) A Control System for Wind Tunnel Drives. Heldenreich....1126
(Industrial) A Thrustor Lowering Control System for A-C Crane Hoists. Schwarz-Kast....88
(Industrial) Adjustable Frequency Control of High-Speed Induction Motors. Heumann....402
(Industrial) An Analysis of Motor Selection for Brass-Slab Rolling-Mill Service. Berkley....89
(Industrial) Automatic Operation of Electric Boilers. Eaton....609
(Industrial) Control of Slip Ring Motors by Means of Unbalanced Primary Voltages. Schmitz....609
(Industrial) Data on the High-Frequency Resistance of Coils. Witzig....609
(Industrial) Dielectric Heating—the Measurement of Loss Under Rising Temperatures. Whitehead....610
(Industrial) Dynamic Braking by Self-Excitation of Squirrel-Cage Motors. Srinivasan, Thomas....88
(Industrial) Dynamic Braking of a Single D-C Series Motor. Leitch....88
(Industrial) Dynamic Braking of Two D-C Series Motors. Leitch....609
(Industrial) Electric Drives for Textile Finishing Ranges. Moore, Uhl....89
(Industrial) Electric Equipment in the Finishing Room. Winterburn....610
(Industrial) Electric Furnace Practice in Canada. Balleny....610
(Industrial) First Interim Report on Interior Wiring Design for Commercial Buildings. (Committee Report)....1125
(Industrial) Radar Technique in an Industrial Control. Cockrell....89
(Industrial) Rotating Stability Regulators for Synchronous Motor Drives. Schaelchlin....609
(Industrial) Shading Coil Calculations for Single-Phase Magnets. Evans....88
(Industrial) Some Fundamentals of a Theory of the Transductor or Magnetic Amplifier. Lamm....609
Instrument Mechanisms, Applications of the Electrodynamic. Corson, Millar....610
Instrument Transformer Secondary Circuits, Grounding of. (Committee Report)....93
Instrumentation and Measurement Tidd 500-Kv Test Lines. Tremaine, Lippert....1128
(Instruments) A Capacitance-Type Fuel-Measurement System for Aircraft. Pearson....927
(Instruments) A Polyphase Thermal Ampere Demand Meter. Petringer....90
(Instruments) A Self-Balancing Capacitance Bridge. Foley....610
(Instruments) A Simplified Double-Film Klydonograph With an Improved Coupling Method. Waghorne....610
Instruments, Advancements in the Design of Long-Scale Indicating. Rowell, Millar....90

MEETINGS, GENERAL:
Midwest General Meeting, Chicago, 1947
Communications Subject of Two Sessions Held During Meeting....1236
Concurrent With National Electronics Conference....495
Electronic Relays Applications Surveyed....1238
Energy Sources are Subject of Electric Power Conference....1239
Fermi Discusses the Future Prospects of Atomic Energy....*1246
Gets Off to a Good Start at Chicago....1232
Industrial Control Problems Discussed....1243
Industrial Power Systems, Conference Devoted to....1238
Machinery Problems Discussed....1242
Power Generation Session Tells of Progress and Probability....1246
Program Announced....1130
Radiations Subject of Discussion at Tuesday Session on Lighting....1240
Registration, Analysis of....1233
Resistance Welding Problems Discussed....1241
Solar Radiation Studies Reported....1245
Storage Battery Maintenance, Session Devoted to....1247
Tidd Test Lines. 500-Kv (Photo)....1131
Tidd Transmission Lines, Two Sessions Devoted to 500-Kv....1234
To be Held in Chicago....930, 1012
Transmission, Transformers, and Grounding Subject of Session on Wednesday....1244
Tubes and Relays Discussed at Joint AIEE-NEC Session....1235
Wiring Report Described at Industrial Power Session....1245
Pacific General Meeting, San Diego, 1947
Aircraft Industry Stressed in Two Industrial Sessions....1023
Aircraft Sessions on Wednesday, Power Important in Discussions at....1018
Arrangements Being Made....596
Attendance Record at San Diego, Sets....1013
California Tower Through Archway of Palms in Balboa Park. (Photo)....800
Committee Appointed....302
Communications and Electronics, Two Sessions on....1023
Marine Sound Equipment Discussed at Sonar Symposium....1019
Miscellaneous Subjects at First Technical Session....1016
Night in Mexico....800
Offers Attractive Vacation Features....704

Power Sessions at Meeting Feature Number of Varied Topics, Three....1020
Registration, Analysis of....1016
Registration—1940–47....1015
Tentative List of Papers....801
Variety of Topics Presented at Student Sessions....1017
Summer General Meeting, Montreal, 1947
Annual Meeting....495
Annual Meeting Held in Montreal, 63rd....831
Carrier Current on Power Systems....823
Committee and Subcommittee Meetings Scheduled on Program, 24....829
Committee Appointed....187
Communications Session, Modulation Featured at....824
Computing Devices, Conference Held on....827
Conversion Problems Compared for Electrochemical Industries....823
Education Session, Five-Year Curriculum Engrosses....816
Electric Machinery Subject of Two Sessions...826
Features Saguenay Boat Trip....493
Final Arrangements Made....591
Heating Problems, Furnaces, and Industrial Voltages Discussed....820
Hydroelectric Power Generation in Germany and Canada Discussed....827
Industrial Control Devices, Four Papers Presented on....826

Instruments and Measurements Session, Three Devices Described at....825
Is Fourth to Be Held in Canada....803
Mercury-Arc Applications Analyzed for Three Industries....827
Modulation Featured at Communications Session....824
Officers, Delegates, Members Provided at Three Conferences, Forum for....804
Paper Mill Processes, Two Lively Sessions Devoted to....818
Power Transmission and Distribution Featured at Two Sessions....821
Program Announced....592
Protective Devices Subject of Friday's Session....822
Registration—1938–47....803
Registration, Analysis of....803
Resistance Welding Reviewed at Conference, Position of....827
Sections Voted by Board of Directors, New....833
Servomechanisms Session Covers Wide Range of Subjects....825
Shipshaw Power Development. (Photo)....591
Standardization Studied at All-Day Conferences, Facets of International....812
Static Electricity, Conference Explores Methods of Dissipating....828
Student Branches Held in Montreal, Conference on....834
Student Prize Papers Invited....815
Telemetering, Demonstration Highlights Conference on....826
To Be Held Montreal June 9–13, 1947....398
